Contents

Aušková, M., Řežábek, K.: Inhibition of lactation in rats by the dithiobiurea derivative VÚFB 7319 509

Bartůňková, R., Janský, L.: Effect of cold and noradrenaline on the cardiovascular system of cold adapted rats 163

Bass, A., Gutmann, A., Haníková, M.: Contraction properties and enzyme pattern of the mouse and rat diaphragm 5

Bass, A., Gutmann, E., Hanzlíková, V., Syrový, I.: Sexual differentiation of enzyme pattern and its conversion by testosterone in the temporal muscle of the guinea-pig 423

Bednařík, T., Cajthamlová, H.: Formation of precipitins to albumin in normal and splenectomized rabbits during intravenous immunization 39

Bednařík, T., Cajthamlová, H.: Study of the occurrence of a new fraction in the immunoglobulin zone in the rabbit 263

Besrest, A., Requin, J.: Cinematographic analysis of the initial motor syndrome of audiogenic epilepsy in the mouse (Swiss Albinos) 453

Blahoš, J., Blahošová, A.: The influence of thyroxine and calcitonin on plasma citrate levels in the rat 153

Bobek, P., Ginter, E., Červeň, J.: Scintillation spectrometry determination of digitonides of ^{11}C-labelled cholesterol 523

Brabcová, J., Jelínek, J., Drahota, Z.: Cytochrome oxidase activity of the kidney during development 467

Brechtlová, M., Laššánová, M.: Transport of L-glutamate and glycine in cells of rat cerebral cortex slices. Effect of inhibitors and the composition of the medium on transport . . . 241

Brodan, V., Hájek, M., Kuhn, E.: An analog model of pulse rate during physical load and recovery 189

Brožek, G., Bureš, J.: Study of plasticity of neurone populations in model situations . . . 565

Burešová, O., Bureš, J.: Interocular and interhemispheric transfer of visual engrams in callosotomized rats 557

Cajthamlová, H., Bednařík, T.: Hypercatabolism of IgG after splenectomy in the rabbit . . 185

Chocholová, L., Radil-Weiss, T.: Effect of allobarbital on focal epilepsy in rats 325

Chromá, M., Popp, M.: Determination of small amounts of 18-aldosterone glucuronide in urine 345

Dobiášová, M., Linhart, J., Bibr, B.: Interaction of exogenous phospholipids with rat liver mitochondria: the effect of Ca^{2+} ions 489

Dobiášová, M., Pokorný, V., Drahota, Z.: Properties of rat liver mitochondria treated with phospholipase A and C and with lysophosphatidylcholine 173

Doležal, V., Luxa, J., Peřich, F.: Excretion of 3-methoxy-4-hydroxymandelic acid and 3-methoxy-4-hydroxyphenolacetic acid by pilots in relation to flying 499

Fiala, J., Viktora, L., Urbancová, J.: Transplantability of mouse spleen cells stored at +2°C to +4°C 319

Filip, J., Šikulová, J., Novák, L., Hošek, B.: Radioprotective effect of different doses of sodium fluoroacetate on mice irradiated in a gas mixture with a high oxygen concentration . . . 269

Gutmann E., Hájek, I.: Differential reaction of muscle to excesive use in compensatory hypertrophy and increased phasic activity 205

Gutmann, E., Syrový, I.: Contractile behaviour and ATPase activity of the semitendinosus muscle of the rat 1

Havel, V., Škranc, O.: Changes on the acid-base balance of the blood after repeated maximum exercise loads 19

Heller, J.: Micropuncture study of the mechanism of natriuresis after a short infusion of isotonic saline in rats 139

Heřt, J., Mertl, F., Babický, A.: Reaction of bone to mechanical stimuli. Incorporation of ^{45}Ca and ^{35}S into rabbit tibia subjected to intermittent stress 575

Grimová, J.: Significance of X-ray evaluation of bone changes in adjuvant arthritis in rats . . 583

Janebová, M.: Elicitation of Leao's cortical spreading depression by threshold amounts of electrophoretically applied K^+ ions 447

Jirmanová, I., Hník, P., Zelená, J.: Implantation of "fast" nerve into slow muscle in young chickens 199

Kidd, G. L., Kučera, J., Vaillant, C. H.: The influence of the interstitial concentration of K^+ on the activity of muscle receptors 99
Korpáš, J., Gajdoš, E.: Effect of cold on the aspiration reflex 617
Korpáš, J., Gajdoš, E.: Mechanoreception of the respiratory tract in guinea pigs 623
Korpáš, J., Hnidková, D.: Effect of codeine on the aspiration reflex of the rat 611
Kselíková, M.: Incorporation of 1-^{14}C-leucine into splenic and liver tissue of rats of different age 291
Laššánová, M., Brechtlová, M.: Transport of L-glutamate and glycine in cells of rat cerebral cortex slices. Kinetics of transport 233
Lát, J., Holečková, E.: The effect of intermittent feeding and fasting on the non-specific excitability level of the central nervous system in the rat 441
Lát, J., Martínek, Z.: A quantitative comparison of the dynamics of excitation and inhibition in "interrupted" and "uninterrupted" habituation of exploratory reactions in dogs . . . 117
Lisý, V., Kovářů, H., Faltin, J., Lodin, Z.: Activity of succinate dehydrogenase and acetylcholinesterase in synaptic endings isolated from neurophil and cerebral cortex 229
Kidd, G. L., Kučera, J., Vaillant, C. H.: The influence of the interstitial concentration of K^+ on the activity of muscle receptors 95
Machová, A.: Effect of methyloxytocin on renal excretion of water and electrolytes in the rat . 515
Mejsnar, J., Janský, L.: Nonshivering thermogenesis and calorigenic action of catecholamines in the white mouse 157
Mortillaro, M., Emser, W.: Low-frequency waves in the neocortex during arousal reaction in the rat 109
Mourek, J., Loutocká, N.: Influence of hypoxia and age on the plasma potassium concentration in the rat 277
Mourek, J., Průžková, V.: Influence of hypoxia and age on 2,4-DNP-activated oxygen consumption in the central nervous system and liver tissue of the rat 473
Nemec, R., Červeň, J., Ginter, E.: Quantitative determination of $^{14}CO_2$ by scintillation spectrometry in metabolic studies in vivo 281
Németh, Š., Vigaš, M., Straková, A.: Further evidence for the existence of psychological influences upon survival and metabolism of rats subjected to tumbling trauma 595
Németh, Š., Vigaš, M., Macho, L., Babušíková, F., Štrbák, V.: The effect of conditioning to Noble-Collip drum trauma on adrenal catecholamine content, catecholamine sensitivity and in vitro pyruvic, lactic acid and $^{14}CO_2$ production from labelled substrates by hemidiaphragm of the rat 601
Niederland, T. R., Dzúrik, R., Gregorová, B.: Gluconeogenesis in rat kidney after partial hepatectomy 589
Ošťádal, B., Rychterová, V.: Effect of necrogenic doses of isoproterenol on the heart of the tench (Tinca tinca — Osteoichthyes), the frog (Rana temporaria — Anura) and the Pigeon (Columba livia — Aves) 541
Paleček, F., Holuša, R.: Spontaneous occurrence of lung emphysema in laboratory rats. A quantitative functional and morphological study 335
Perlík, F., Elis, J.: Pharmacokinetics of (4,5-^{14}C)-6-azauridine in rats with adjuvant-induced polyarthritis 181
Pilný, J., Faltová, E., Deyl, Z.: Extrafocal changes in experimental myocardial necroses of rats 549
Pilný, J., Faltová, E., Vrzalová, Z., Deyl, Z.: Comparison of histological findings in subendocardial layer of rat myocardium after ligature of coronary artery and isoproterenol administration 553
Přibyl, T., Schreiber, V., Roháčová, J.: Binding of thyroxine by rat tissue proteins 481
Proceedings of the Czechoslovak Physiological Society, June 29 to July 1, 1970 53
Proceedings of the Czechoslovak Physiological Society, January 27—29, 1971 357
Rychter, Z., Jelínek, R.: Progress of vascularization of the ventricular myocardium in the chick embryo 131
Rychter, Z., Jelínek, R., Marhan, O.: Progress of vascularization of the ventricular myocardium in the rat embryo 527
Rychter, Z., Jelínek, R., Klika, E., Antalíková, A.: Development of the lymph bed in the wall of the chick embryo heart 533
Sedláček, J.: Cortical responses to visual stimulation in the developing guinea pig during the prenatal and perinatal period 213
Servít, Z., Strejčková, A., Volanschi, D.: Epileptic focus in the forebrain of the turtle (Testudo Graeca). Triggering of focal discharges with different sensory stimuli 221
Schreiber, V., Přibyl, T., Roháčová, J.: Ascorbic acid depletion in the adenohypophysis in the presence of oestrogen-induced adenohypophysial hypertrophy 147
Schreiber, V., Roháčová, J., Přibyl, T.: Endocrine changes after chronic lithium carbonate administration in rats 249

Schreiber, V., Přibyl, T., Roháčová, J.: Effect of the anti-androgen cyproterone acetate on the action of oestrogen on the rat endocrine system 255
Schück, O., Stříbrná, J.: Localization of the action of diuretics on renal tubular potassium transport in man 297
Siddiqui, M. Z., Šterc, J.: Hypophysectomy by electrolysis in new-born rats 353
Sobotka, P.: Freezing rate of rabbit brain in liquid nitrogen 287
Šebestík, V., Brabec, V., Jelínek, J.: Sequestration of heat-damaged red cells in splenectomized rats 33
Štěpita-Klaučo, M., Ujec, E.: Physical principles of new technique for measuring cable properties and myoplasmic resistance of muscle fibres 43
Táborská, E.: Intraspecies variability of the venom Echis carinatus 307
Trávníček, T., Borová, J., Šulc, K.: Subunit composition of polymorphic rat haemoglobins . 27
Waitzová, D., Kubát, K., Melicharová, M., Koldovský, O.: The effect of neomycin on the absorption of glucose from the small intestine and on the morphology of the intestinal mucosa in infant and adult rats in vitro 11
Zelená, J., Sobotková, M.: Absence of muscle spindles in regenerated muscles of the rat . . 433
